Prof. G. Dehm, Prof. J. Neugebauer, Prof. D. Raabe (CEO), Dr. K. de Weldige

<b>Department</b> <i>Computational Materials Design</i> Prof. J. Neugebauer		<b>Department</b> <i>Interface Chemistry and Surface Engineering</i> Prof. M. Stratmann*				<b>Department</b> <i>Microstructure Physics and Alloy Design</i> Prof. D. Raabe		<b>Department</b> <i>Structure and Nano-/ Micromechanics of Materials</i> Prof. G. Dehm				<b>Independent Research Groups, Members and Schools</b>
<b>Computational Phase Studies</b> Dr. T. Hickel	Funded by Netherlands Organisation for Scientific Research <b>Complex Concentrated Alloys</b> Dr. F. Körmann	<b>Atomistic Modelling</b> Dr. S. Wippermann	RUB-MPIE Junior Research Group <b>Spectroscopy at Electrochemical Interfaces</b> Dr. M. Rabe	<b>Atom Probe Tomography</b> Dr. B. Gault	Funded by German Research Foundation <b>High-Entropy Alloys</b> Prof. Z. Li (guest group leader)	<b>Advanced Transmission Electron Microscopy</b> Dr. C. Liebscher	Funded by ERC Advanced Grant <b>Atomistic Modelling of Material Interfaces</b> Dr. T. Brink	Independent Max Planck Research Group <b>Nanoanalytics and Interfaces</b> Prof. C. Scheu				
<b>Computer Center</b> Dr. C. Freysoldt	Co-funded by EU and BMBF <b>Growth Modelling</b> Dr. L. Lymperakis	<b>Corrosion</b> Dr. M. Rohwerder	Guest Group <b>Material Transformations in Electrocatalysts</b> Dr. O. Kasian	<b>Computational Sustainable Metallurgy</b> Dr. J. R. Mianroodi	Funded by German Research Foundation <b>High Performance Alloys for Extreme Environments</b> Prof. P. Kontis (guest group leader)	<b>Intermetallic Materials</b> Dr. M. Palm Dr. F. Stein	Funded by ERC Advanced Grant <b>Hydrogen Mechanics and Interfaces</b> Dr. M. J. Duarte Correa	Max Planck Fellow Group <b>Electrochemistry at Nanoscale Materials</b> Prof. K. Tschulik				
<b>Defect Chemistry and Spectroscopy</b> Dr. C. Freysoldt				<b>Mechanism-based Alloy Design</b> Dr. D. Ponge	ERC Consolidator Grant <b>Hydrogen in Energy Materials</b> Dr. B. Gault	<b>Nanomechanical Instrumentation and Extreme Nanomechanics</b> Dr. R. Ramachandramoorthy		Int. Max Planck Research School <b>Interface Controlled Materials for Energy Conversion</b> E. Gattermann Dr. S. Wippermann				
<b>Electrochemistry and Corrosion</b> Dr. M. Todorova				<b>Microscopy and Diffraction</b> Dr. S. Zaefferer	Funded by German Research Foundation <b>Integrated Computational Materials Engineering</b> Prof. M. Diehl (guest group leader)	<b>Nano-/ Micromechanics of Materials</b> Dr. James Paul Best		External Members Prof. M. Hillert Prof. R. Kirchheim				
<b>Microstructure and Mechanics</b> Prof. E. Bitzek				<b>Theory and Simulation</b> Dr. F. Roters	Funded by BMBF <b>Materials Science of Mechanical Contacts</b> Dr. M. Herbig	<b>Thin Films and Nanostructured Materials</b> Dr. James Paul Best (interim) Prof. M. Ghidelli (guest group leader)						
<b>Thermodynamics and Kinetics of Defects</b> Dr. L. Huber												
<b>Interdepartmental &amp; Partner Groups</b>	MPG Group <b>De Magnete Designing Magnetism</b> Prof. O. Gutfleisch	MPG Group <b>High Temperature Materials</b> Prof. G. Eggeler	MPG Group <b>Thin Film Materials Design</b> Prof. J. Schneider	<b>Physical Metallurgy of Sustainable Alloys</b> Dr. Y. Ma Dr. I. Souza	<b>Hydrogen Embrittlement in High-Performance Alloys</b> Dr. B. Sun	<b>Materials Science of Additive Manufacturing</b> Prof. H. Springer Dr. R. Ramachandramoorthy	Max Planck Partner Group <b>Combinatorial Design of Permanent Magnets</b> Prof. K. G. Pradeep	Max Planck Partner Group <b>Degradation of High Temperature Materials</b> Prof. S. K. Makineni	Max Planck Partner Group <b>Functional Oxide Structures</b> Prof. N. J. Balila	Max Planck Partner Group <b>High Performance Materials for Harsh Energy Applications</b> Dr. J. Zavasnik	Max Planck Partner Group <b>Stress and Defects Driven Phase Transformations</b> Prof. R. S. Meka	Partner Group with RWTH Aachen University <b>Sustainable Materials Science and Technology</b> Prof. H. Springer
<b>Scientific Service Groups</b>	<b>Hydrogen Laboratory</b> - Electrochemical and gas-phase hydrogen charging - Thermal Desorption Spectroscopy Dr. M. Rohwerder	<b>Materials Testing</b> - Mechanical Properties - Physical Properties - Varying Environments Dr. D. Ponge	<b>Metallography</b> - Light Microscopy - Metallographic Sample Preparation - Scanning Electron Microscopy Dr. S. Zaefferer	<b>Synthesis and Processing</b> - Alloy Production - Annealing and Welding - Thermomechanical Treatments Dr. D. Ponge	<b>X-Ray Diffraction</b> - XRD Phase Analysis - Pole Figure and Residual Stress Measurements - Advanced XRD Techniques B. Breitbach							
<b>Administration &amp; Non-Scientific Service Groups</b> Dr. K. de Weldige	<b>Accounting and Third Party Funds</b> M. Bosch	<b>Human Resources</b> J. Heisel	<b>Procurement</b> U. Theuerkauf	<b>Electronics</b> I. Gonzalez	<b>IT Services</b> R. McCormack	<b>Library</b> P. Siegmund	<b>Research Coordination Office</b> Dr. K. Hübel International Office: S. Zwaka Public Relations: Y. Ahmed Salem Research Funding: Dr. K. Hübel Int. Max Planck Research School: E. Gattermann		<b>Technical Services incl. Mechanical Workshop</b> M. Winkler			
<b>Boards &amp; Representatives</b>	<b>Apprentice Representative</b> S. Becker	<b>Disability Representative</b> V. Kree	<b>Gender Equality Officer</b> S. Degner	<b>Scientific Advisory Board</b> Coordinator: A. Schuck	<b>Supervisory Board</b> Coordinator: A. Schuck	<b>Work Council</b> K. Angenendt						

\*Prof. M. Stratmann is on leave for the time of his presidency of the Max Planck Society. Provisional head of the department is Prof. J. Neugebauer.
